# Goals of Education

We have set goals of education, as well as this year's target goals, in order to improve school management and guidance, in accordance with the spirit of the Fundamental Law of Education and the School Education Law, and the tradition that has been cultivated since our school was established.

## 1 Goals of Education

- (1) To endow students with well-rounded scholastic abilities.
- (2) To develop modest and courteous students.
- (3) To bring up healthy and assiduous students.
- (4) To instill students with a strong sense of responsibility and trustworthiness.
- (5) To foster bright and cultured students.

## 2 This Year's Targets

- (1) To strive to make well-rounded people by helping students understand the significance of ceremonies, morning gatherings, and other school events.
- (2) To make students ambitious and to develop their ability to learn by themselves.
- (3) To improve the curriculum by building a close relationship between school subjects in order to realize the intended aims.
- (4) To follow the curriculum in accordance with each student's ability, aptitude, course selection, and interests, and to select what should be taught while letting students master the fundamental items.
- (5) To strive to bring up students who respect courtesy and responsibility, and familiarize students with the fundamental customs of living by encouraging greetings and punctuality.
- (6) To encourage students to actively participate in extracurricular activities, especially the student association and club activities.
- (7) To encourage students to understand volunteerism and willingly participate in volunteer activities.
- (8) To investigate and implement the fundamental principle of internationalization in education.
- (9) To investigate how to introduce computers and the Internet into school so as to catch up with the current of the information-oriented society.
- (10) To encourage students to select their own future courses according to their ability and aptitude, and help them realize their plans by placing an emphasis on future course guidance.
- (11) To help students develop cultured minds and to aid them in acquiring the ability to learn independently by making more use of the library and audio-visual facilities.
- (12) To respect each student's individuality, to have them reflect on requirements of a fully human life and approaches to life, and to promote their zest for living.
- (13) To improve safety education, to cultivate the spirit of respecting one's own life as well as those of others, and, most importantly, to educate students in traffic safety and what to do in case of disasters.
- (14) To bring up students who are health conscious by encouraging them to participate in sports activities and undergo regular health checks and athletic aptitude tests.
- (15) To publish a bulletin in order to complete in-service training of teachers.
